Sleep

Sleep is nature's rebuilding period, when the energy used by the brain, muscles and organs is renewed. If you lose sleep, your system is robbed of the strength sleep should give. Continued loss of sleep multiplies this loss until you become a physical wreck. Dr. Miles' Nervine quiets the irritated nerves and brings refreshing, invigorating sleep. Nervine contains no opiates, and therefor leaves no bad after-effects. leaves no bad after-effects.

"For over two years I suffered untell agonies; my friends thought I was going crazy. I could not sleep nor rest at all. I tried different doctors, but failed to find relief. My head would ache all the time; I was like one drunk; could not concentrate my mind, and was so restless and werried that sleep was out of the question. After taking one bottle of Dr. Miles' Nervine I felt wonderfully changed. I am now on my third bottle and am guining all the time. I can lie down and sleep like a child, and am able to do my work."

here is a story of a man determined to commit suicide. He went to the store and bought a rope, can oil, a box of matches, a dose of arsenic and a revolver. He went down and pushed his boat from the shore and paddled down to where a limb hung over and he got up in the bow of the boat and tied one end of the rope to the limb and the other around his neck, saturated his clothing with coal oil, lighted a match and set his clothing afire, took a a dose of arsenic, put the Wine muzzle of the revolver to his temple, pulled the trigger. But the bullet glanced and cut the rope above him and he fell ker wallop into the river and the water put out the fire, and he got strangled and coughed up the arsenic, and rose up and waded out and declared himself a candidate for office on the Demoeratic ticket .- Ex.
